

UE - Socrates Grundtvig (2007)

The LLML project, funded within the framework of the Socrates-Grundtvig Programme, addressed museum educators/cultural mediators in charge of adult education in museums or wanting to develop programmes addressed to adults in and with museums.

It aimed at designing, delivering and disseminating training and didactic material to support museum educators facing a new challenge in their work.

LLML offered museum practitioners the opportunity to develop the skills to deal with underrepresented segments of the public in a European perspective while exchanging experiences with colleagues belonging to different countries and institutional frameworks. It also offered the general public, and in particular adults, a wider and more qualified access to the cultural heritage and to museums through educational offers tailored to their expectations and learning styles.
